The World Human Peace Foundation is a Canadian registered non-profit organization dedicated to promoting peace, uniting, and helping people in need. We volunteered our services to create a new brand identity and website that better represented what The World Peace Foundation was trying to achieve. We had a deadline of two weeks to achieve this.

Peace and Unity Campaigns

We raise awareness about the importance of peace and unity through media channels and events. This campaign is crucial because it addresses conflicts, reduces violence, and promotes a harmonious society where everyone can thrive.

Honoring Peace Efforts/ Remembering War Victims

We ensure the history of wars and the memories of those who have fallen are never forgotten. The emotional impact of historical events can fade with time. We inspire future generations to cherish peace and work towards a harmonious world.

Humanitarian Aid/ Helping People in Need

Why Peace Advertisements are Important

Peace advertisements play a crucial role in fostering unity, harmony, and understanding among people from diverse backgrounds. Just as companies advertise jeans, perfume, or cars to captivate their audiences, peace advertisements are essential in capturing the hearts and minds of individuals globally, promoting a culture of non-violence and cooperation.

These advertisements serve as powerful tools to raise awareness about the importance of peace, inspire collective action, and encourage communities to come together in pursuit of a more harmonious world. By showcasing images of people united, working together, and embracing each other, peace advertisements remind us of our shared humanity and the profound impact of living in peace.

Join The World Human Peace Foundation in our mission to spread the message of peace far and wide, creating a global movement towards a more peaceful and united world.

Espace Vital (campingfranceonline.com) is a small campsite in the countryside of France. While we were staying at the campsite, the owners asked if we could help them to change their hosting provider and redesign their website to make it more clean and simple. Just to add a little bit extra to the website, we added an interactive map showing the places of interest in the area. The website was created very quickly to keep the down time to a minimum.

Camping & Caravans

Welcome to Espace Vital Camping, we are Paul and Leanne, originally from the UK and we settled in the Marvan in 2018. We fell in love with the natural beauty of the surroundings and wanted to make this place our home. We love the rural, peaceful lifestyle the campsite offers, from the amazing night skies to the local people. Only a stones throw from the historic town of Autun, you can choose to either relax or explore the region during your stay with us.

Testimonials

"We had a great time at Paul and Leanne's camping! The location was great, very quiet and peaceful, with an amazing view of the countryside and the mountains nearby.
